Thanks for confirming the amounts – I will work with Program support to allocation and obligate the remaining \$400K of pipeline funding to other UA funding tools – mostly ESAT.

Just confirmed with Andrew Schmidt that you were going to add \$90K to the USGS IA for Upper Animas support – peer review & “pay back” for Rob Runkel modeling & field assistance?

This \$\$\$ was coming out of the \$400K of Remedial pipeline allocated for Upper Animas.
Please confirm ASAP. Thanks.
